FOREWORD

The Government of Kenya (GoK) is committed to ensuring that policy objectives for Education, Training and Research meet the aspirations of the Kenya Constitution 2010, the Kenya Vision 2030, National Curriculum Policy 2019, the United Nations Sustainable Development Goals (SDGs) and the Regional and Global conventions to which Kenya is a signatory.

Towards achieving the mission of Basic Education, the Ministry of Education (MoE) embarked on a reform process that culminated in the adoption of a Competency Based Education (CBE) system in 2017. This came after extensive research, stakeholder engagement international benchmarking and consideration of the 21st Century socio-economic realities. CBE in Kenya adopted a 2-6-3-3 structure where the numbers indicate the years learners take at various levels in Basic Education (Pre-Primary, Primary, Junior School and Senior School; respectively). CBE has for critical elements: The Competency Based Curriculum (CBC), Pedagogy (teaching and learning), Resources and the Competency Based Assessment. The MoE oversees the provision of resources while the other components (Curriculum, Pedagogy and Assessment are handled by the Kenya Institute of Curriculum Development, (KICD), Teachers Service Commission, (TSC) and the Kenya National Examinations Council (KNEC); respectively.

KICD has successfully developed curriculum designs that have been used in the implementation of the Competency Based Curriculum (CBC) for the Pre-Primary, Primary and Juniors School levels. The first cohort of learners pursuing the CBC will transit to Senior School (Grades 10-12) in 2026. The curriculum designs at this level are expected to facilitate learners to acquire relevant knowledge, skills, values and attitudes (competencies) in preparation for tertiary education and the world of work. I urge all agencies of the GoK and other stakeholders in Education to use the designs to plan for effective and efficient implementation of Competency Based Education.

PREFACE

The Ministry of Education (MoE) through the State Department for Basic Education, has been implementing the Competency Based Education (CBE) since the adoption of the *Basic Education Curriculum Framework* (KICD, 2017) during the national convention in January 2017. The Kenya Institute of Curriculum Development (KICD) developed Competency Based Curriculum (CBC) designs that were used for pilot studies in 2017 and 2018 before the roll-out at Pre-Primary and Primary Early Year (Grades 1 to 3 in 2019. The curriculum was then introduced in the subsequent grades through *a phase in –phase out* strategy, to ensure a smooth transition. Currently, the first cohort of CBC learners are at Grade 9 – the last grade at Junior School. The implementation of CBE has since benefited immensely from the recommendations of the *Presidential Working Party on Education Reforms* (PWPER) that were released in August, 2023 and fully implemented, in terms of curriculum designs.

Grade 10 is the entry class of the Senior School (SS) in Basic Education, a very critical level where learners shall have the opportunity to focus on pathways, tracks and subjects of their choices guided by the potentials demonstrated at earlier levels. The Senior School shall; therefore, form a foundation for further education and training and/or initial competencies for the Industry. This is an important step in the realisation of the Vision and Mission of the curriculum reforms as enshrined in the Sessional Paper No. I of 2019 whose title is: *Towards Realizing Quality, Relevant and Inclusive Education and Training for Sustainable Development* in Kenya.

The Grade 10 curriculum designs, like the designs for earlier levels, are anchored on the Kenyan National Goals of Education. They also present essence statements, general and specific expected learning outcomes as well as strands and sub strands for the learning areas. The designs also outline suggested learning experiences, key inquiry questions, core competencies, Pertinent and Contemporary Issues (PCIs), values and suggested assessment.

The Ministry of Education, through the State Department for Basic Education commits to provide resources and relevant guidelines for a smooth implementation of the CBC. It is expected that the designs will guide teachers to effectively facilitate learners to attain the expected learning outcomes for Grade 10 specifically and Senior School in general.

ACKNOWLEDGEMENT

The Kenya Institute of Curriculum Development (KICD) Act Number 4 of 2013 (Revised 2019) mandates the Institute to develop curricula, programmes and curriculum support materials for Basic and Tertiary Education and Training. The curriculum development process involves research, international benchmarking and robust stakeholder engagement. Through a systematic and consultative process, the KICD conceptualised the Competency Based Curriculum (CBC) as captured in the *Basic Education Curriculum Framework* (KICD,2017), that responds to the demands of the 21st Century, the United Nations Sustainable Development Goals (SDGs). African Agenda 2063, East African Community Protocol and the aspirations captured in the Kenya Constitution 2010 and the Kenya Vision 2030.

KICD receives its funding from the GoK to enable the successful achievement of the stipulated mandate and implementation of the Government and Education sector plans. The Institute also receives support from development partners targeting specific programmes. The Grade 10 curriculum designs were developed with the support of the World Bank and GoK through the *Kenya Primary Education Equity in Learning Programme* (KPEELP); a project coordinated by the MoE. Therefore, the Institute is very grateful to the GoK, through the MoE and the development partners (especially The World Bank) for support in terms of policy guidance, resource provision and capacity building. Specifically, I wish to express special thanks to the Cabinet Secretary-MoE and the Principal Secretary-State Department for Basic Education.

We also wish to acknowledge the KICD curriculum development officers and other staff, all teachers, educators who took part as panellists; the institutions that participated and representatives of various stakeholders for their roles in the development of the Grade 10 curriculum designs. In relation to this, we acknowledge the support of the Chief Executive Officers of the Teachers Service Commission (TSC), the Kenya National Examinations Council (KNEC) and other agencies in the sector for their support in the process of developing these designs.

Finally, we are very grateful to the KICD Council Chairperson and other members of the Council for consistent guidance and oversight. We assure all teachers, parents and other stakeholders that these curriculum designs will effectively guide the implementation of the CBE at Grade 10 and preparation of learners for transition to further education and training or the world of work.

NATIONAL GOALS OF EDUCATION

Education in Kenya should:

1. **Foster nationalism and patriotism and promote national unity.**
   The people of Kenya belong to different communities, races and religions, but these differences need not divide them. They must be able to live and interact as Kenyans. It is a paramount duty of education to help young people acquire this sense of nationhood by resolving conflicts and promoting positive attitudes of mutual respect, to live together in harmony and foster patriotism, and make a positive contribution to the life of the nation.

2. **Promote the social, economic, technological, and industrial needs for national development.**
   Education should prepare the youth of the country to play an effective and productive role in the life of the nation.
   a) **Social Needs**
      Education in Kenya must prepare children for changes in attitudes and relationships necessary for the smooth progress of a rapidly developing modern economy. Rapid modernisation is bound to lead to a silent social revolution, and education should assist our youth in adapting to this change.
   b) **Economic Needs**
      Education in Kenya should produce citizens with the skills, knowledge, expertise, and personal qualities required to support a growing economy. Kenya is building a modern and independent economy that needs an adequate and relevant domestic workforce.
   c) **Technological and Industrial Needs**
      Education in Kenya should provide learners with the necessary skills and attitudes for industrial development. Kenya recognises the rapid industrial and technological changes taking place, especially in the developed world. We can only contribute to this development if our education system is deliberately focused on the knowledge, skills and attitudes that will prepare our young people for these changing global trends.

3. **Promote individual development and self-fulfillment.**
   Education should provide opportunities for the fullest development of individual talents and personality. It should help children to develop their potential interests and abilities. A vital aspect of individual development is the building of character.

DRAFT

4. **Promote sound moral and religious values.**
   Education should provide for the development of knowledge, skills and attitudes that will enhance the acquisition of sound moral values and help children to grow up into self-disciplined, self-reliant and integrated citizens.

5. **Promote social equality and responsibility.**
   Education should promote social equality and foster a sense of social responsibility within an education system that provides equal educational opportunities for all. It should give all children varied and challenging opportunities for collective activities and corporate social service irrespective of gender, ability or geographical environment.

6. **Promote respect for and development of Kenya's rich and varied cultures.**
   Education should instill in the youth of Kenya an understanding of past and present cultures and their valid place in contemporary society. Children should be able to blend the best of traditional values with the changing requirements that must follow rapid development to build a stable and modern society.

7. **Promote international consciousness and foster positive attitudes towards other nations.**
   Kenya is part of the international community. It is part of the complicated and interdependent network of peoples and nations. Education should therefore lead the youth of the country to accept membership of this international community with all the obligations and responsibilities, rights and benefits that this membership entails.

8. **Promote positive attitudes towards good health and environmental protection.**
   Education should inculcate in young people the value of good health for them to avoid indulging in activities that will lead to physical or mental ill health. It should foster positive attitudes towards environmental development and conservation. It should lead the youth of Kenya to appreciate the need for a healthy environment.

THE SENIOR SCHOOL IN THE COMPETENCY BASED CURRICULUM

Senior School is the fourth level of Basic Education in the Competency Based Curriculum (CBC) that learners shall proceed to after the Pre-Primary School, Primary School and Junior School levels. The essence of Senior School is to offer learners a pre-tertiary/university/ pre-career experience in which the learners have an opportunity to choose pathways, tracks and subjects where they shall have demonstrated interest and/or potential at the earlier levels. Senior School comprises three years of education for learners generally in the 16-18 years age bracket and lays the foundation for further education and training at the tertiary level and the world of work. In the CBC vision, learners exiting this level are expected to be ***engaged, empowered and ethical citizens*** ready to participate in the socio-economic development of the nation.

At this level, learners shall take seven (7) learning areas as recommended by the *Presidential Working Party on Educational Reforms* (PWPER, 2023). These shall comprise **four compulsory learning areas** namely: English, Kiswahili, Essential Mathematics/Core Mathematics and Community Service Learning (CSL). Learners will choose between Core Mathematics (for learners pursuing the Science Technology Engineering and Mathematics Pathway) and Essential Mathematics (for learners pursuing the non-STEM pathways). The learner will select three learning areas depending on their career choice, aptitude, interest and personality with guidance by the career teacher at Senior School.

LEARNING OUTCOMES FOR SENIOR SCHOOL

By the end of Senior School, the learner should be able to:

1. Communicate effectively and utilise information and communication technology across varied contexts.
2. Apply mathematical, logical and critical thinking skills for problem solving.
3. Apply basic research and scientific skills to manipulate the environment and solve problems.
4. Exploit individual talents for leisure, self-fulfilment, career growth, further education and training.
5. Uphold national, moral and religious values and apply them in day-to-day life.
6. Apply and promote health care strategies in day-to-day life.
7. Protect, preserve and improve the environment for sustainability.
8. Demonstrate active local and global citizenship for harmonious co-existence.
9. Demonstrate appreciation of diversity in people and cultures.
10. Manage pertinent and contemporary issues responsibly.

ESSENCE STATEMENT

The Senior School Mandarin Chinese curriculum builds upon the foundational competencies established in Junior School, where the learner was introduced to the language through experiential learning and cultural engagement. At this level, Chinese learning further develops the learner's linguistic and cultural competence through enriched content. The curriculum is organised thematically, drawing on learners' daily lives and experiences to ensure authentic and meaningful use of the language. These themes provide a foundation for integrating the four key language skills: listening, speaking, reading, and writing - with increasing complexity and depth.

Learning at this level emphasises communicative competence and learner centred engagement. The learner actively applies language skills through dialogues, role-plays, interactive tasks, real-life simulations and cultural exploration in varied contexts. This approach not only builds confidence but also equips the learner with the ability to use Mandarin Chinese effectively in real world situations. It also prepares them for further studies in the language and for practical application in professional and multicultural settings.

Proficiency in Mandarin Chinese equips the learner with valuable linguistic and intercultural competencies that prepare them for diverse career opportunities. These include international relations, tourism, trade and commerce, translation and interpretation, teaching, diplomacy, cultural exchange, and other professions where Chinese language proficiency and cultural knowledge are highly valued.

SUBJECT GENERAL LEARNING OUTCOMES

By the end of Senior School, the learner should be able to:

a) Listen and respond appropriately in a variety of authentic contexts.
b) Communicate effectively in a variety of oral situations.
c) Read and comprehend texts of moderate complexity across diverse genres and contexts.
d) Compose legible, coherent, and creative texts in Chinese.
e) Apply appropriate Mandarin Chinese grammar to communicate effectively.
f) Use diverse media to access and create information to foster lifelong learning.
g) Apply the acquired knowledge, skills, and attitudes to cope with challenges in daily life.
h) Appreciate one's and others' cultures to foster international awareness and global citizenship.

1.1Listening and Speaking	**1.1.1 Phonological Awareness** • *Sound Discrimination* • *Tone Discrimination* • *Blending* • *Rhyming* • *Initials & Finals*	By the end of the sub strand, the learner should be able to: a) discriminate syllables in keywords and phrases, b) express ideas clearly in spoken language, c) appreciate the role of speaking clearly to convey different meanings.	The learner is guided to: • listen to an audio clip on kinship terms for nuclear and extended family members, then identify and say the initials and finals (e.g. 妈妈、姐妹、奶奶、阿姨), • categorise titles of nuclear and extended family members and accurately identify the tones in each word and phrase (e.g. 哥哥、弟弟、外婆), • combine flashcards of initials, finals, and tones to form words and phrases related to professions and say them out loud (e.g. *yī+shēng= yīshēng ; lǎo + shī= lǎoshī)*, • work collaboratively to sort words and phrases, forming compound words related to places of work and read them in turns (e.g.图书 + 馆 = 图书馆; 办公 + 室 = 办公室),	Why is speaking clearly important in communication?

DRAFT

			• compose and recite a poem about members of their nuclear and extended family with correct tones to convey meaning, • take turns introducing their family members, stating their title, age, nationality, residence, profession, and place of work (e.g. 我叔叔叫__。他今年 40 岁。他是肯尼亚人，住在美国。他是医生，在医院工作。）， • describe a family member clearly and in detail to convey meaning without revealing the exact relationship as others guess who it is, • record themselves on various platforms, focusing on speaking clarity, and share the recordings for peer feedback and review.	

Core Competencies to be developed:

- Communication and Collaboration: the learner speaks clearly and effectively, using the appropriate language, expressions, and tone as they take turns introducing their nuclear and extended family members.
- Digital Literacy: the learner develops skills in using digital technology to effectively accomplish their tasks when they record their speaking on various platforms and share with peers for review and feedback.

DRAFT

Values: ● Respect: the learner appreciates the diverse opinions of their peers as they share about the different aspects of their family members to their peers. ● Unity: the learner appreciates the efforts of others when they review and give constructive feedback to their peers' recordings of speaking clarity.
Pertinent and Contemporary Issues (PCIs): ● Cultural awareness and sensitivity is enhanced as the learner appreciates diverse family structures and the importance of kinship terms in society. ● Healthy intra and inter-personal skills are developed as the learner socialises and interacts with peers to undertake the various group activities.

Strand	Sub Strand	Specific Learning Outcomes	Suggested Learning Experiences	Suggested Key Inquiry Question(s)
1.2 Reading	**1.2.1 Reading Aloud** ● *Fluency* ● *Pronunciation* ● *Articulation*	By the end of the sub strand, the learner should be able to: a) pronounce words and phrases with the correct tones, b) apply appropriate fluency in reading tasks, c) acknowledge the importance of clear pronunciation when reading aloud.	The learner is guided to: ● repeat reading tongue twisters related to nuclear and extended family members, paying attention to the correct tones, ● listen to a recording of pair words with different tones and articulate them clearly to show tonal differences (妈妈骑马，马慢，妈妈骂马), ● organise a reader's theatre on the introduction of nuclear and extended family members, stating their title, age, nationality, residence, profession, and place of work, ● record themselves reading texts, identify their strengths and suggest ways of improving their weaknesses, ● assess their peers as they read aloud introductions of their nuclear and extended family members,	1. Why is clear and correct pronunciation important when reading? 2. How do you read aloud effectively?

DRAFT

			noting their pronunciation of words and giving feedback on their fluency, ● collaboratively organise an inter-class reading competition to encourage a reading culture among peers.	

Core Competencies to be developed:

- Self-efficacy: effective communication skills are fostered as the learner evaluates their strengths and weaknesses while reading and suggests possible solutions for their shortcomings.
- Communication and Collaboration: the learner develops teamwork skills when actively organising a reader's theatre by introducing nuclear and extended family members.
- Digital Literacy: the learner uses digital technology to select the most appropriate digital tools or apps to record themselves reading the selected texts.

Values:

- Unity: team spirit is displayed as the learner works collaboratively with peers to organise an inter-class reading competition to encourage reading culture among peers.
- Respect: the learner is open-minded when they receive feedback from their peers on their pronunciation of words and their fluency.

Pertinent and Contemporary Issues (PCIs):

Peer mentorship: this is developed as the learner assesses their peers' reading fluency and gives feedback.

1.3 Writing	**1.3.1 Orthography** ● *Strokes* ● *Stroke order* ● *Characters* ● *Handwriting (legibility and clarity)*	By the end of the sub strand, the learner should be able to: a) write Chinese characters using the correct stroke order, b) construct correct sentences using Chinese characters, c) acknowledge the importance of writing legibly for effective communication.	The learner is guided to: ● imitate writing the basic strokes of Chinese characters for mastery (横 héng、竖 shù、点 diǎn、撇 piě、捺 nà、提 tí), ● copy Chinese characters from a model text related to nuclear and extended family members, ● write kinship terms for nuclear and extended family members following the correct rules of writing Chinese characters (e.g. 妈妈、姐妹、奶奶、阿姨、外婆), ● arrange the set of words in Chinese characters to form grammatically correct sentences, ● write simple texts introducing their nuclear and extended family members, stating their title, age, nationality, residence, profession, and place of work (e.g. 我叔叔叫__。他今年 40 岁。他是肯尼亚	Why should you write clearly and legibly?

DRAFT

			人，住在美国。他是医生，在医院工作。）， ● use the picture prompts to write short descriptions about their nuclear and extended family members, ● showcase their writings on the class noticeboard for feedback, ● look at examples of neatly and poorly written character texts and discuss how legibility affects understanding.	
Core Competencies to be developed: ● Communication and Collaboration: the learner writes clearly and spells words correctly as they write kinship terms while adhering to the rules of writing Chinese characters. ● Critical thinking and Problem-solving: evaluation and decision-making skills are developed as the learner analyses neatly and poorly written character texts and reflects on how legibility affects understanding.				
Values: Unity: the learner respects other people's opinions when receiving feedback on their writing displayed on the class noticeboard.				
Pertinent and Contemporary Issues (PCIs): • Healthy intra- and inter-personal skills are developed as the learner interacts and works collaboratively with peers to discuss the importance of legibility in written communication. • Peer mentorship: this is fostered through shared learning experiences as the learner displays their written work on the noticeboard and receives constructive feedback from peers.

1.4 Grammar	**1.4.1 Word Classes** ● *Demonstrative pronouns* 这 *and* 那 *as attributives* ● *Adverb* 都 ● *Sentence structures* 是不是？ and 是吗?	By the end of the sub strand, the learner should be able to: a) identify pronouns, adverbs, and sentence structures in texts, b) apply the pronouns, adverbs, and sentence structures correctly in sentences, c) value the importance of using pronouns, adverbs and sentence structures accurately for effective communication.	The learner is guided to: ● read a short passage and underline the demonstrative pronouns 这 and 那, adverb 都 and the sentence structures 是不是？ and 是吗 ?, ● talk about nuclear and extended family members using 这 and 那, ● research online or offline on the appropriate situations to use 都 and construct correct sentences, ● place the adverb 都 in the correct position in sentences, ● work collaboratively to compose a dialogue using the sentence structures 是不是？ and 是吗? ● look at sample sentences, identify the grammar errors,	How can you use sentence structures effectively in communication?

			and work collaboratively to correct the errors, ● identify the challenges they face when using the selected word classes and share with peers for feedback on how to address them.	
Core Competencies to be developed: ● Self-efficacy: effective communication skills are enhanced as the learner clearly states and identifies their challenges using the selected word classes and shares with peers for feedback on addressing them. ● Critical thinking and Problem-solving: the learner develops research skills by looking for appropriate situations to use the adverb correctly.				
Values: Unity: the learner collaborates with their peers to identify and correct grammatical errors.				
Pertinent and Contemporary Issues (PCIs): Social cohesion is enhanced as the learner teams with peers to articulate their strengths and limitations when using the word classes and seeks their advice, contributions, and perspectives on addressing the challenges.

2.1Listening and Speaking	**2.1.1 Phonological Awareness** • *Discrimination of sounds* • *Discrimination of tones* • *Initials and finals* • *Syllable dividing mark* 隔音符号 • *Retroflex final* 儿化音	By the end of the sub strand, the learner should be able to: a) combine syllables to form disyllabic words in Chinese, b) distinguish sounds and tones accurately for meaning, c) appreciate sound and tone discrimination in enhancing speaking proficiency.	The learner is guided to: ● combine individual syllables related to items and places at home to form disyllabic words and say them aloud, ● sort word cards related to home items and place them into groups of disyllabic words. Say each word aloud and explain its meaning (e.g. 厨房、客厅、卧室、桌子、厕所、椅子、床、电视、冰箱 etc.), ● listen to an audio clip and repeat the vocabulary focusing on sound and tone discrimination, ● say words with the syllable dividing mark and retroflex final using the correct tones (e.g. 花儿、门儿 etc.), ● take turns asking and responding to questions about the location and direction of items and places	Why is tone and sound discrimination important for effective communication?

Core Competencies to be developed: • Citizenship: ethical digital citizenship skills are fostered as the learner safely and responsibly uses ICT to search for a tongue twister online with peers. • Self-efficacy: the learner develops effective communication skills as they collaboratively identify challenges they face with sound and tone discrimination then propose possible solutions.				
Values: • Integrity: the learner displays honesty when openly and truthfully discussing the challenges they encounter with sound and tone discrimination and possible remedies.				

DRAFT

• Unity: the learner participates in turn taking activities and conversations when asking and responding to questions about the location and direction of items and places at home.
Pertinent and Contemporary Issues (PCIs): • Internet Security: the learner applies safe internet practises when researching a tongue twister online. • Peer Education and Mentorship: The learner engages in collaborative discussions about sound and tone discrimination challenges and suggests solutions.

			• read aloud a passage about a home layout to guide peers in arranging items on a diagram, • perform a short skit or readers' theatre describing the placement of items in a home using expression and confidence.	
Core Competencies to be developed: • Communication and Collaboration: teamwork skills are nurtured as the learner takes turns reading descriptions for constructive feedback on the use of intonation, stress, and rhythm. • Learning to Learn: the learner simulates reading dialogues with peers on giving and following directions.				
Values: • Integrity: Honesty is displayed when the learner reads aloud for their peers to provide honest, constructive feedback on the use of intonation, stress, and rhythm. • Responsibility: the learner engages in assigned roles and duties as they perform a short skit or reader's theatre describing the placement of items in a home.				
Pertinent and Contemporary Issues (PCIs): Peer education and mentorship: This is developed as the learner collaboratively reads aloud texts with appropriate intonation, stress, and rhythm.

2.3 Writing	**2.3.1 Orthography** • *Strokes* • *Stroke order* • *Characters* • *Handwriting (legibility and clarity)*	By the end of the sub strand, the learner should be able to: a) identify common errors in stroke order and Chinese character formation, b) compose words and sentences in Chinese using correctly formed characters, c) display a positive attitude towards writing texts using Chinese characters.	The learner is guided to: • use the character guides given to compare their work against correct models and identify mistakes on use of 上、下、里、旁边 etc., • collaboratively play a matching game by pairing strokes in the correct order to form complete characters, • arrange the characters given to form grammatically correct sentences (e.g. 沙发在客厅里), • use the pictures to compose short, meaningful texts describing the location and direction of various items and places at home, • organise a writing club to foster appreciation and enthusiasm for writing characters accurately in the school community,	1. How can you improve your writing skills? 2. What strategies can help improve accuracy in stroke order and character formation?

DRAFT

			• keep a journal of their character writing practise to reflect on their improvement and share their favourite texts with peers for feedback, • watch a video clip on Chinese characters to inspire an appreciation for the beauty of writing characters.	

Core Competencies to be developed:

- Learning to Learn: the learner reflects on their work and keeps a progress journal to assess improvement in their writing practise.
- Communication and Collaboration: the learner writes meaningful texts fluently and in an organised manner using the pictures given.

Values:

- Unity: the learner displays respect for others as they collaboratively play a matching game to form complete characters.
- Social Justice: the learner fosters inclusivity and justice in the school community by organising a writing club, encouraging all to participate and appreciate accurate Chinese character writing.

Pertinent and Contemporary Issues (PCIs):

- Intercultural awareness is promoted as the learner gains an appreciation and understanding of Chinese characters by watching the video clip.
- Peer education and mentorship: The learner engages effectively with others to address writing challenges in the school community when they create the writing club.

			• team up with peers to undertake an online or offline virtual tour of tourist destinations and unique features in Kenya and China, • research a local tourist attraction of their choice and make a logical oral presentation for peer feedback.	

Core Competencies to be developed:

- Digital Literacy: the learner connects using digital technology to undertake a virtual tour of tourist destinations and unique features in Kenya and China.
- Citizenship: national and cultural identity skills are enhanced as the learner makes a presentation on a local tourist attraction of their choice.

Values:

- Unity: team spirit is displayed as the learner collaborates with peers to provide feedback on story presentations about visited tourist destinations.
- Patriotism: love for one's own country is developed as the learner makes a presentation on a local tourist attraction in their locality.

Pertinent and Contemporary Issues (PCIs):

- Healthy intra and inter-personal skills: this is developed as the learner works collaboratively with peers to create presentations using card cues.
- Intercultural Awareness: the learner enhances their understanding of diverse cultures by exploring local and global tourist attractions through virtual tours.
